

Dear Members of the Federal Communications Commission:

I am writing to you to request that you reject the National Association of Broadcasters' petition, #04-160, which I believe would be a disservice to the community. I am a subscriber to XM satellite radio and find the many channels and wealth of information the service provides to be of great importance to me. Of particular importance is the instant traffic and weather, something which I feel is a key component of the service and that which petition #04-160 aims to eliminate.

Please reject petition #04-160.

Sincerely,

Scott Caruthers
